

How To Measure for a Jacket

**Do Not Measure yourself.
Have someone else measure you.**

1. Chest: _____
(Around the fullest part of your underarms)

Measured chest number equals size of jacket need.

2. Neck to Beltband in Back: _____
(Shown by dotted line)

*Long Jackets are 2inches longer than regular.

If you are in doubt about your sizing, please consult the narrative for the jacket you are interested in. Usually, it will state "order your normal jacket size", or "one size larger". If you are still in doubt, see the instructions above and fax (254)-662-9097 or call (888)-834-9971 your dimensions in so that we can get you the appropriate size. We will contact the manufacturer to assure a comfortable fit.
